Chairman: Dawid Plona
Note taker: Vlad Nitu
Attendees: Codrin Socol, Laimonas Lipinskas, Lotte Kremer, Nicolae Radu, Razvan Loghin, Dawid Plona, Vlad Nitu

Agenda-items

13:45 - 13:47 **Opening by chair**

13:47 - 13:50 **Stand-up**

- Inform on the schedule of the meeting
- Inform on the developments since last meeting

13:50 - 14:00 **Questions for the Teaching Assistant**

- What exactly does need to be handed in for the first assignment on 02.12.2022?
- Up to what point can a user specify availability (e.g. weekly and then repeat, monthly)?
- Is each class with its own database considered a microservice?
- Does new boat type addition implicate new certificate addition?
- Should the available positions in Activity be a list or a separate table of objects with columns ("ActivityId -> Long, taken -> boolean, position -> String")?
- Can users/competitions have multiple organization affiliations/requirements?

14:00 - 14:10 **Feedback Round**

- Ask group members for specific feedback on the past week's cooperation and progress
- Ask the Teaching Assistant for feedback on the provided UML diagram and the Requirements Engineering document

14:10 - 14:13

Summarise planned activities

- After the meeting:
 - Incorporate the feedback
 - Convert requirements to Gitlab issues and distribute them equally
 - Get started on Assignment 1 PDF creation

14:13 - 14:15

Question Round

14:15

Closure
